## Workshop on Story Telling for Grade I and II

*“Storytelling is a powerful way to put ideas into the world today.”* By Robert McKee

Storytelling is a universal and traditional art form that has featured strongly in Indian culture as an effective communication tool. It can be used to inform, entertain, and educate. It is often used as a medium to ingrain values, improve reading skills, and open minds of children to a world beyond imagination.

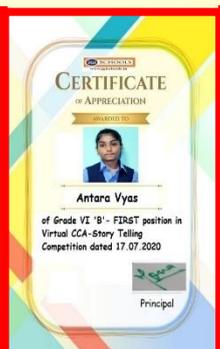

A workshop for story-telling was thus organized for grade 1 and 2, by Scholastic on 27<sup>th</sup> and 28<sup>th</sup> July. Ms. Trina conducted the

session. The session was indeed valuable and distinct. Children found it interesting and engrossing. The story regarding “Animals and facts about animals” was shared with them with creative gestures, facial expressions, finger puppets, and a colorful presentation. The appropriate use of voice modulation and body language infused passion, enhanced imagination and expression thereby introducing children to new horizons of storytelling. It was an interactive session where children were taught the right way of “story-telling”. Overall, this session helped the young souls for creative thinking.
