27.02.2023 & 28.02.2023	National Science day Celebration

Quotable quote: "Never regard study as a duty, but as the enviable opportunity to learn.

-Albert Einstein

Assembly Presentation By Grade VII,III B & I B Topic: Respect

Respect is like a mirror, the more you show it to other people the more they will reflect it back.

Assemblies are an integral part of the growth and orientation of the students. The students of Grade VII, IIIB and IB conducted an assembly on the topic "Respect" from 1st to 3rd February, 2023.

Respect is a feeling of deep admiration for someone or something elicited by their abilities, qualities and achievements. Respect, also called esteem, is an action shown towards someone or something considered important or held in high esteem or regard. It conveys a sense of admiration for good or valuable qualities. It is also the process of honoring someone by exhibiting care, concern, or consideration for their needs or feelings. Different days of the week were allotted to each student to present in the assembly.

Through an enriching thought and word, the students understood that 'Respect' for ourselves guides our morals; respect for others guides our manners. Through this assembly, students had a great learning experience of showing respect towards others. The assembly was concluded by singing the national anthem.

-Ms.Shireesha

CCA Competition For Grade I to V Topic: Racing Competition

Run when you can, walk if you have to, crawl if you must; just never give up.

Running is a sport that comes with huge physical and psychological demands. People run for many reasons, to compete, to get fit, to socialize with other runners, some run to improve their mental health, and others love to run. Running races are contests to determine which of the competitors is able to run a certain distance in the shortest time. Today, competitive running events make up the core of the sport of athletics.

To promote running in the school, a running competition was organized for students of grade I-V at Jain Heritage a Cambridge School. The competition began with great zest and excitement. Young participants were thrilled and were very energetic to be a part of this competition. Most of the participants performed well and won prizes. The impeccable energy of the students made the competition more energetic and full of enthusiasm.

-Ms. Jyoti Arora

Assembly Presentation By Grade VI A & B

Topic: Optimism

“Our greatest weakness lies in giving up. The most certain way to succeed is always to try just one more time.”

- Thomas A. Edison

The Morning Assembly creates skillful public speakers who can confidently deliver a message in front of a large audience. It is a way that our students, teachers, and parents build close ties, stay informed, identify role models, and experience the reinforcement of positive messages.

The students of Grade VI conducted the morning assembly on the topic “Optimism” on 6th, 8th and 9th February. The morning started with Guru Vandana followed by the school song. Wonderful thoughts for the day were shared by the students. The students spoke the word for the day and also explained its meaning. Learning and teaching go hand in hand in the morning assembly. The articles delivered by the students provided plenty of inspiration for fresh and positive messages. The character-building qualities like honesty, respect, responsibility, and spirituality were emphasized and the students were motivated to develop these positive qualities and try to reinforce them in their life. The students vowed that they would be generous, respect everyone and care for each other and be positive. Bringing positivity and hopefulness in life is the cornerstone for developing and maintaining a harmonious and productive relationship in the long run. The assembly helped the students in knowing the tendency to be hopeful and to think of the good in a situation rather than the bad, or the feeling that in the future, good things are more likely to happen than bad things.

-Ms.Anunidhi

Home Studio Visit

“When I’m in the studio, there are no boundaries”

At JHCS Kondapur, we believe in continuous and experiential learning with holistic development of the students. Students from grade I to V visited the “Home Studio” at the school premises. Home Studio is like a mini home that has a drawing room, dining room, bedroom, study room and ironing table. Just as a child learns how to be disciplined & behave in a certain manner in school through the guidance of the teachers, similarly Jain Heritage A Cambridge School has taken a creative initiative further to incorporate life skills in students with respect to home environment by educating them with basic courtesies that need to be displayed at home. The students enjoyed the visit and learned the spectrum of the tasks ranging from learning how to fold the bed sheets, ironing their own clothes, putting used clothes inside a laundry bag, learning how to tie their shoe-laces & button one’s shirt, organizing their study table, learning table manners & etiquettes along with proper use of cutlery. Engaging them in Home-Studio Concept, the students learnt to be more self-reliant and to be more confident.

-Ms.Anunidhi

CCA Competition For Grade I to VII Topic: Singing Competition

Music is the literature of the heart, it commences where speech ends.

Music is the greatest communication in the world. Even if people don’t understand the language that you’re singing in, they still know good music when they hear it. To promote singing talents in the school, a singing competition titled ‘Music in the Air’ was organized for students of Grade I to VII in Jain Heritage a Cambridge School. The competition was held in different languages- English, Hindi, and Telugu in the Old assembly area and in the Music room on 9th & 10th February. The students were eager to participate in the competition. Hence, a large number of students turned out for the competition. Each one of them gave their best. The budding singers put up the amazing show with their melodious voice and mesmerized the audience present there. The judges for the competition were Ms.G.Jyoti, Ms.Swapna, and Ms.Madhuri & Ms.Poonam. The participants were judged on the basis of their melody, rhythm, synchronization and general impression. It was a tough competition and even the judges found it difficult to decide the winners. The singing talent of the students advocated that music has great power, rhythm and soul. Song and music are two separate things yet united. It inculcates human virtues and inspires to be good human beings. Principal Dr. Mona Mehdi & Coordinator Ms.Shuchita Malhotra congratulated the winners and praised the students for their wonderful performance.

-Ms.Jyothi

Assembly Presentation By Grade II A Topic: World Pulses Day

"No meal is complete without pulses. Have them for better health."

World Pulses Day is celebrated every year on February 10th to raise awareness about the important role that pulses play in global food security and human nutrition. Pulses are a type of edible seeds called legumes such as beans, lentils, chickpeas, and peas. They are the important source of protein, fiber and other essential nutrients including iron, zinc, folate. Pulses are the good source of complex carbohydrates that are widely consumed in many parts of the world. They are a low-fat, low-calorie food that is rich in nutrients, making them a healthy and nutritious addition to any diet.

To illuminate on the topic "World Pulses Day" a special assembly was conducted by the students of Grade-II A on 10th February, 2023. Students enlightened themselves with an enriching thought and the word of the day to raise awareness about the nutritional benefits of pulses and encourage their consumption to improve the health. To develop the curiosity in students, a quiz was conducted on the facts about nutritional rich food. The assembly was concluded by singing the national anthem.

Ms. Shobha

Assembly Presentation By Grade I

Topic: World Radio Day

“After silence, that which comes nearest to expressing the inexpressible is music.”

- Aldous Huxley

Morning assembly is a powerful tool to install discipline and also to set a joyful and focused tone for the day. The students of Grade 1, presented the special assembly on World Radio Day for creating awareness about the radio. World Radio Day is celebrated every year on February 13 to mark the important role plays by radio in our lives and in society. The objective of World Radio Day is to raise public awareness of the importance of radio. The assembly was initiated by Trishika Munjuluri, with great zeal and enthusiasm. The assembly began with a prayer followed by the school song and paved the way for the students to rejuvenate their spirits. Pledge was administered by Haruhi, an enriching thought was spoken by J Aaryaman. To enhance vocabulary, word of the day was shared by Yuvan Lakkam. The young students Ridaya Sree, Rishika Tripathi, Shreyasi Yadav, Prahisha, Gautam Karthikeya explained that radio is a low-cost and popular medium, which can reach the remotest areas and the most marginalized people. It continues to broadcast when other media are out of action – for emergency communications or following a natural disaster. An informative article on “World Radio Day” was presented by Nairiti Mandal. Radio is still changing lives across the globe. It’s like a great friend and neighbor, one who’s always there and never lets you down. Overall, the assembly was truly entertaining and informative. Our Principal Dr. Mona Mehdi encouraged the students and appreciated their efforts. The assembly was concluded by singing the National Anthem.

-Ms.Garima

Assembly Presentation By Grade V A & B Topic: Importance Of Giving

**“I have found that among its other benefits, Giving liberates the soul of the giver.”
- Maya Angelou**

Giving is a human quality of being kind, polite, and understanding others pain. Nobody can give everything, but can try to give as much as they can. Donations should be made to help the needy. We should help not just the poor, but the one who are in need. It is not always necessary to give only money. You can give any item that you have.

Charity strengthens personal values. It is important to have kindness and understanding in order to be a giving person. To make others understand this, you yourself should be giving.

The students of Grade V, conducted the assembly on “*Importance of giving,*” from 14th Feb to 17th Feb 2023 to share their knowledge with all the students. The assembly started with the prayer and the school song. It included many inspirational quotes on giving, and a word. Then the students updated everyone on what is happening around the world with the news. They participated with great enthusiasm and briefed the other students about the importance of the day. The assembly was concluded by singing the national anthem with pride and patriotism in the veins.

CCA Activity For Grade I to VII Topic: Crossword Puzzle

The nice thing about doing a crossword puzzle is, you know there is a solution.

Crossword Puzzle is an innovative way to learn concepts in an interesting way. Completing crossword puzzles can help to relieve stress and improve intellectual well-being. As part of a recent school activity, a crossword puzzle was organized for the students of Grade I to VII on 16th Feb, 23rd and 24th February. The students were eager to participate in this activity. All the students enjoyed completing the puzzle. The activity received positive feedback from both students and teachers, who praised its effectiveness in providing a fun and engaging learning experience. Overall, the crossword puzzle activity conducted was a tremendous success. It provided a unique and interactive learning experience that helped students develop essential skills while having fun. The school should continue to organize similar activities to promote a positive learning environment and enhance students' educational experiences. The nice thing about doing a crossword puzzle is, you know there is a solution.

-Ms.Sireesha

Assembly Presentation By Grade III A Topic: International Mother Language Day

Languages connect us and break down barriers when we unite to nurture the best in us and help each other succeed.

International mother language day is an observance held annually on February 21 to promote multilingualism. It was first announced by UNESCO in November 1999. The goal of international mother language day is to preserve linguistic diversity and to promote mother tongue based multilingual education. The day serves to recognize and celebrate the importance of all languages used by people of different cultures around the world. The day also serves to protect the right of everyone to use and learn their mother language, regardless of their social class or economic status. It is important to celebrate international mother language day to remind everyone of the importance of mother tongues, the right to use them, and the need to protect them.

The day started enthusiastically with prayer followed by school song. Pledge was administered by Dheekshith, followed by an enriching thought by Vihaan and to enhance the vocabulary, word was presented by Vivaan. Anchoring was done by Karthikeya Jishnu. To know more about mother tongue, an article was presented by Jayanth. Grade III A girls performed a skit on different Indian languages. The topic made the students understand the importance of Mother Tongue in one's life. The assembly was concluded by singing National Anthem.

-Ms. Jyothi

National Science Day Celebration

“Science knows no country, because knowledge belongs to humanity and it is a torch that illuminates the world.”

National Science Day is a significant event celebrated in India on February 28th every year to commemorate the discovery of the Raman Effect by Sir C.V. Raman. It is an occasion to raise awareness about the importance of science and technology in our daily lives and inspire young minds to pursue science as a career.

At our school, we celebrated National Science Day 2023 with great enthusiasm and zeal for two days with the theme “Global Science for Global Wellbeing”. The science department organized a series of events and activities for the students to showcase their scientific knowledge and skills. The Academic Council Secretary and our Principal Dr Mona Mehdi was our chief guest and she inaugurated the Science Exhibition 2023.

The day began with a special assembly where the science teachers spoke about the significance of National Science Day and the contributions of Sir C.V. Raman to the field of science. The teachers also spoke about the importance of sustainable science and how it can help in building a better future for the planet. The students discussed the boon and bane of Science and technology. Grade VI students presented a melodious song on the importance of scientific approach in our daily life.

After the assembly, the students of grade I-IX participated in a Science exhibition with various thoughtful and fun filled science experiments. Senior section students participated in a paper tower challenge while making various designs with limited resources. The students participated with great enthusiasm and showcased their creativity and scientific knowledge.

In conclusion, National Science Day 2023 was celebrated with great fervor and enthusiasm at our school. The event helped in creating awareness about science and technology and inspired the students to pursue science as a career. It was a great learning experience for all the students, and we look forward to celebrating it every year.

Title - The Secret Garden
Author - Frances Hodgson Burnett

At the outset I would like to thank my father for buying my favorite book. This was my first novel which I read and it was an amusing story. There was a family, husband was an English Government and wife was great beauty and a daughter Mary. Mary was given to Ayah because her mother didn't like her. Ayah was very kind and Mary loved her but unfortunately Ayah suffered from a disease called cholera and at the same time other servants also suffered from the same disease.

Mary was alone and there was no one to take care of her. She went to Mr English clergyman's house. She was very alone and didn't like to play with others. There was a boy named Basil who irritated Mary all the time. Basil told Mary that she was going to her uncle Mr. Craven's house in Misselthwaite Manor. She was accompanied with Mr. Craven's servant in a train and his servant described about Mr. Craven. She told her Mr. Craven's wife expired and he went to depression and he did not allow anyone. Mary learned about the Secret Garden and enquired about the same with Mr. Craven's maid. She insisted on the key which would unlock the Secret Garden and also about the bird that resides around the Secret Garden. Mary was keen to enter into the Secret Garden and the bird directed Mary to the place where the key was deposited. At last she entered the mysterious place and she was amazed. She became a normal human being at the sight of the Secret Garden as she loved the place which was like her dream world.

Alumni Speaks

As I sit to reminisce about my time back in grade 6, I realise that it isn't much of a bygone as it is the starting of something that continues to this day. I went to JHCS back in 2009, seemingly ignorant of the tectonic effect that school, the lessons learnt, and the people would have on me. It's at JHCS that I learnt that education wasn't about a grade or a trophy but about learning and cherishing the knowledge gained. My teachers gave me the freedom to explore, to dig deep, to learn outside the classroom, and do it all with a smile. I have gained friends that have helped me at 2am, friends that find the best breakfast spots, teachers that have given me the confidence to embark on anything and everything, and if I'm being honest, friends that are now family. The freedom I got in school motivated me to take up Public Policy and International Relations as a career, and as I move forward, I doubt I could ever forget the lessons learnt in what we always referred to as the "Pink Building".

Vidhatri Pattapu

"INDIA VISION"

Jain Heritage A Cambridge School, Kondapur celebrated the 74th Republic Day with immense patriotic fervour and zeal. The event started with flag hoisting followed by speeches delivered by students in three different languages showcasing the history and significance of Republic Day and delivered motivational talk highlighting the duties and rights of citizens.

The students presented songs and dances to celebrate the monumental day.

A beautiful skit was presented to showcase the sacrifices made by Indian Army. The campus was decorated with festoons and balloons of tricolour and several flags adorned the school buildings. The whole campus came alive with the spirit of patriotism.

Principal Dr Mona Mehdi inspired the students with her motivational words and told all the students to abide by the Constitution of their motherland and fulfil all their duties as responsible citizens.

BOOK REVIEW: THE SECRET GARDEN

AUTHOR: FRANCES HODGSON BURNETT

It is a story of Mary who is brought up by her Ayah because her mother doesn't like her and loves to party. The Ayah is very kind and Mary loves her but unfortunately the Ayah suffers from cholera and at the same time other servants too suffer from the disease. Mary is alone and there is no one to take care of her. She is sent to the English clergyman's house where she is very lonely and has nobody to play with. There is a boy named Basil who irritates Mary all the time. Basil tells Mary that she will be going to her uncle Mr Craven's house in Misselkwaite Manor. She goes there in a train with Mr Craven's servant who tells her all about Mr Craven. She tells her that he is depressed as his wife had expired and does not allow anyone in the house. Mary had learned about a Secret Garden there and enquires about the same with Mr Craven's maid. She finds out that there is a key to the garden and about a bird that resides in the vicinity. Mary is keen to enter the Secret Garden and finds the bird that takes her to the place where the key was deposited. At last, she enters the mysterious place and is amazed to see it. She becomes a normal happy person at the sight of the Secret Garden. She loves the place which is like a dream world. I would like to thank my father for buying me this book, my very first novel which I read.

THE GARDEN

I went to a garden
Where planting was done
There I saw so many trees
Giving fresh breeze

The grass is found, All around
On the ground, And near the pond

And I have seen a big bush
Where the kids rush. And run
Under the bright, shining sun
