"Guru is the one who lights the lamp of knowledge and dispels the darkness of ignorance."

Guru Purnima is an auspicious day that holds great significance in Indian culture, where the role of teachers is cherished and celebrated. Guru Purnima, also known as Vyasa Purnima, is a sacred festival celebrated on the full moon day (Purnima) in the Hindu month of Ashadha. This festival pays homage to gurus, teachers, and spiritual leaders who play a pivotal role in shaping the lives of their students. The term "Guru" is derived from the Sanskrit language, where "Gu" symbolizes darkness or ignorance, and "Ru" represents the removal of that darkness. Thus, a Guru is a guiding light who leads their students from darkness to enlightenment. On the auspicious day of Guru Purnima, the students of Grade 7 and Grade 9 on 3-7-2023 conducted a special assembly on the topic

## Assembly Presentation by Grade VIII A Topic: Van Mahotsav

**“Plans to protect air and water, wilderness and wildlife, are in fact plans to protect man.”**

Van Mahotsav or Forest Festival is an annual tree-planting festival celebrated in the month of July in which thousands of trees are planted all over the country. It is celebrated from 1<sup>st</sup> July to 7<sup>th</sup> July to spread awareness of forest conservation and to save the environment. It was started by KM Munshi, the then Union Minister for Agriculture and Food in 1950. It was started with the aim that people will have a chance to celebrate and have more forests and make them realize the importance of conservation of the forests and wildlife.

On this occasion, the students of Grade VIII-A conducted a special assembly on “Vanmahotsav” on 27th July, 2023. The assembly was anchored by Jessica and Unnathi. The day started enthusiastically with prayer followed by school song. Pledge was administered by Tanmoy Das, followed by an enriching thought by Dhruv and to enhance the vocabulary, word of the day was presented by Vyshnavi. Amuktha presented a wonderful article on the topic Van Mahotsav.

The assembly made the students understand that the objective of celebrating Van Mahotsav is to motivate people and make them more aware about forest conservation and planting trees. ## STARS with MASK

Schools bestow the Star Child Award on extraordinary students who exhibit outstanding abilities, talents, and positive values. At JHCS Kondapur, we support students in celebrating their successes to foster an atmosphere that emphasises achievement and personal development. A noteworthy student is chosen each week based on traits including behaviour, dependability, punctuality, presentation, and other comparable traits. On the first day of every week, Dr. Mona Mehdi, the principal, awards the victors with a star batch and a certificate. "Star children"

have the chance to meet the principal, coordinator, and in charge and have snacks with them. With the core team, the children freely share their experiences and the explanations for why they received the star child badge. It is a tremendously uplifting event that shows how bright the future is for these incredible students.

## Experiential Learning

"The only source of knowledge is experience." - Albert Einstein

Balloons always pick the curiosity of young minds. Grade IX students of JHCS KP had a hands on experience with a simple balloon and string to understand Newton's third law of motion, the principle behind rockets during a science session!! Students immersed themselves in the activity and basked in the fun that followed experiential learning. Fostering this kind of environment engages the students, stimulates their thoughts and encourages learning. This approach is aimed at enhancing the personality development of students, thereby instilling in them the necessary skills to thrive in a constantly evolving world.

## Parent's Testimony

I moved from Bengaluru to Hyderabad in the middle of an academic year and since my daughter was in Jain Public School in Bangalore, we applied for internal transfer and luckily my daughter got a seat in JHCS Kondapur.

I couldn't have asked for a better school for my daughter. Right from the inquiry to admission to the first day in school, it was pleasant and smooth. We

were very worried about the language change and even the Hindi subject was way tougher in Hyderabad than in Bengaluru. But the teacher and the management were so helpful. Initially they gave a much easier question paper for tests specifically for my daughter and they took care of my daughter very well. Not just in academics, but in extracurricular activities also they encouraged and nurtured my daughter. My daughter drew a painting on her own from the things she learned from school and took it to the class the next day where one of the teachers liked it and took a picture and submitted it to Times NEA magazine where it was selected and got printed. I am not sure if any other school would be so invested in promoting and encouraging and motivating kids like this. From a scared student who needed special easy question papers, my daughter became confident and passed with good grades for the same question paper as others in the final exams. This was my dream outcome when we shifted to Hyderabad and I think it was only possible due to the excellence of JHCS Kondapur. I would always be grateful for JHCS Kondapur and would highly recommend JHCS Kondapur for anyone.

## Chords that connect

In a world where music touches souls, there is one artiste who holds a special place in my heart—Ruth B. Her lovely melodies and heart-touching lyrics have the power to transport me to a kingdom of tranquillity.

Ruth Berhe, known as Ruth B, songs are a unique mixture of pop, folk, and contemporary R&B. Few of her songs include Lost Boy, In My Dreams, If This Is Love, Dandelions. From the very first notes of her songs, I find myself transported to the thoughts she conveys. Her lyrics make me think deeply about my own experiences. In a world that can sometimes feel chaotic and intense, Ruth B's music serves as a heaven—a place where I can find peace.

## A BOOK

You can't see the world beyond,  
But if you open it and peek,  
You still won't understand.  
But, if you try to bond, The more stories you will seek,  
Of places unknown or of no man's land.

Over the tallest trees, Under the deepest oceans,  
Into the narrowest cave- Or a hive full of bees,  
It will take you to places unseen,  
And more stories you will crave.

Just as evening dawns  
Mosquitoes start zooming in  
The moon just a newborn  
And you start to yawn.  
Creating a ghostly, heavenly din  
And between sadness and loneliness you lay torn.
