Poem Recitation- 4th November 2022

An Intra Poetry Recitation Competition was organized on 4/11/2022 ,Friday at JHCS,Shamirpet for Grades I to X students. Recitation is one of the important and effective modes of learning a language and appreciating a piece of literature. Taking all these facts into consideration the children got an opportunity to exhibit their talent and confidence. The competition inspired the children to come forward and recite on stage.

The children came up with different poems and recited them with great zeal and enthusiasm...

Recitation activities help students to build confidence as they learn to speak more accurately and persuasively. Children astonished everyone with their voice modulation and amazing memorizing skills. Beauty is the realm of poetry, children enjoy the beauty of expression, thoughts, feeling, rhyme,rhythm and music of words.

Sometimes, students are asked to strengthen and enlarge basic knowledge and develop the basic abilities of listening, speaking, reading and writing. However, in the actual teaching process, reciting, this ancient and effective mode has often been overlooked easily.

It is the basic means of training language ability. The famous educator Wei Shusheng says: **“The sense of language has also been strengthened by reciting more”**.

In the process of the learning, the language material that students use are fairly rich but students see them approximately, hear them roughly and read them slightly. Poetry leaves no deep impression on students. Therefore, in speaking, they have to speak correctly, in writing they have to write very fluently and express smoothly which increase students' self-confidence and actual social abilities and improve their language skills greatly.
